

# TRAPEQUE

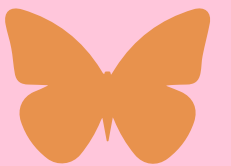

Trapeque is a collection that can be played anywhere. This idea consists on the design of six fold-out characters with different maps inside. These maps tell the story of the artists, revealing interesting facts about them. In addition, the maps can be combined with each other. It also has interchangeable accessories, giving them more personality.

## STOP WASTE

The stickers are made of a biodegradable transparent end made from cellulose. The main material is craft cardboard which is made from recycled cellulose fibres and is renewable and biodegradable. It is a resistant, versatile and economical material.
