AI.RTISANSHIP

The aim of this project is to harness AI to preserve, appreciate, and expand traditional artisanship. We explore the synergy between AI and artisanal crafts through three prototypes: an Educational Platform that learns from skilled artisans to instruct in traditional crafts; a Digital Twin of an Art Piece that fosters appreciation of artistic effort; and a Biomaterials Coach that promotes innovative material use.

COURSE:
Design Studio

STUDENTS:
Jorge Munoz, Vania Bisbal

FACULTY:
Guillem Camprodon
FACULTY ASSISTANT:
Laura Benitez
Jana Tothill
Roger Guilemany
